EDUCATION

Ho Chi Minh University Of Technology (HUTECH)

2019 -2023

Studying: Software Engineering
Degree grade: 3.3/4.0 GPA
Classification : **Very Good**

SKILLS

- **Programming languages**
 - Java,C#,PHP,Python,C,HTML, CSS
 - Javascript,TypeScript
- **Frameworks/ Platform**
 - ReactJS, Next.JS, NodeJS, ExpressJS
 - Java Spring Boot, Spring Data JPA
 - .NET, ASP.NET MVC
 - GraphQL, RestAPI, WebAPI
 - Linux OS, Docker, Postman, SwaggerUI
 - Microservices Architecture, Apache Kafka
- **Database Management Systems**
 - MS SQL Server, MySQL, PostgreSQL
 - Firebase,MongoDB
- **Version Control**
 - Git-Github-GitLab,Jira,Source Tree
- **UI/UX Designer:**
 - Adobe Photoshop, Adobe XD
 - Figma, Canva
- **Soft Skills**
 - Team working, problem-solving
 - Experience with Agile and Scrum development process
 - Critical thinking, self-improvement

LANGUAGE

- **English: Intermediate**
 - Have the ability to speak very fluently and be able to communicate effectively.
 - Extremely good at reading documents and interpreting information to explore professional skills.
 - Be highly skilled at listening, understanding foreign clients communication

Tran Chan Hung

Software Engineer

ABOUT ME

I'm following software developer with a passion for continuous learning, creativity, and improving for my better self. As my personality, I enjoy solving complex problems and building innovative software solutions and website platform to meet everyone's needs. Ultimately, I'm a type of a person who love to communicate in English, which is my hobby, and I'd like to provide my english skills as well as possible.

WORK EXPERIENCE

Hitachi Vantara Vietnam

04/2023 - 07/2023

Position: Full-stack Developer Internship

- **Front-end Development:** Proficiently developed front-end interfaces by using TypeScript and React, created responsive and intuitive UI components with Ant Design framework, enhancing user navigation and interaction.
- **Back-end Development:** Designed and implemented algorithm logic structure, RESTful APIs using Java Spring Boot, enabling efficient data exchange and synergy between front-end and back-end systems, resulting in improved application efficiency.
- Actively participated in agile practices, contributing to sprint planning, stand-up meetings, and code reviews, fostering a collaborative environment.

PERSONAL PROJECT

AI Image Generator - Website

01/2023 - 02/2023

- **Description:** Raw images are generated from user-supplied text descriptions using the OpenAI API and the DALL-E model. The project also has a front-end interface built with React, allowing users to easily create their own images.
- **Technology:** MongoDB, Express JS, React JS, Node JS, Cloundinary, OpenAI.
- **Project preview:** <https://github.com/hunggoodkidz/ai-image-generator>

Cinema Booking Ticket - Full-stack Microservice Web

11/2023 - 12/2023

- **Description:** An online cinema ticket sale with microservice based website, It serves as a comprehensive hub for movie enthusiasts, offering an intuitive and engaging interface to explore a diverse range of cinematic experiences.
- **Technologies:**
 - Front-end: Javascript, React.JS, Redux, Bootstrap
 - Back-end: Java Spring Boot, Spring Cloud, Spring Data Jpa, Spring Security, Jwt, Lombok, Apache Kafka, Zipkin,Resilience4j,PostgreSql, MongoDB, Redis, Docker. Microservice Architecture, Java Mail Sender
- **Project preview:** <https://github.com/hunggoodkidz/microservices-java-spring-boot>

Ecommerce Shop - Website

03/2022 - 04/2022

- **Description:** A website that allows customers to purchase products and services through an online platform. These stores are similar to traditional brick-and-mortar shops, with the main difference being that customers can shop from the comfort of their own homes, without having to physically visit a store.
- **Technology:** C#, ASP.NET, MSSQL Server
- **Project preview:** <https://github.com/hunggoodkidz/ecommerce-shop>

ACHIEVEMENT & ACTIVITIES
